# New generation AI upgrades

The vital driving force for the world and enterprises to move forward.

AI and hardware integration, the most innovative research and development technology.

**H.265  
Compression**

**Advanced**

Multiple multiple certifications

**[BSMI] [FCC] [CE]**

**AI**

3G/4G  
WiFi/GPS  
G-Sensor

**Advanced driver-assistance  
systems ADAS**

Pedestrian detection(PD)

Adaptive Cruise Control (ACC)

Forward Collision Warnings.(FCW)

Lane departure warning (LDW)

**Driver Status Monitor DSM**

Driver calling detection alarm.

Driver smoking detection alarm.

Driver fatigue driving alarm.

Driver abnormal alarm, (when there is no driver or driver does not sit at the right place)

**Blind Spot Monitoring BSD**

**VVH-MDE304 / VVH-MDE308**

**VVH-MD42D/ VVH-MD82D**

## ► VVH-MD42D 4ch / VVH-MD82D 8ch

- 1080P
- 4G/WiFi
- GPS
- Input/Output
- H.265
- G-Sensor
- ADAS
- DSM
- BSD
- AI applications

## ► VVH-MDE304 4ch / VVH-MDE308 8ch

- 1080P
- 4G/WiFi
- GPS
- Input/Output
- H.265
- G-Sensor
- AI applications
- SD card

## ► VVH-MDE52 4ch

- 720P
- WiFi
- GPS
- G-Sensor
- SD card
- 4 alarm inputs
- VGA/CVBS
- RS-232
- 360° video recording

## ► VVH-MDE83 8ch

- 1080P
- 4G/WiFi
- GPS
- Input/Output
- H.265
- 6-Axis Sensor
- ARM/MCU
- SD card

## ► VVH-MD86D 8ch

- 1080P
- 4G/WiFi
- GPS
- Input/Output
- ADAS
- DSM
- SD card
- HDD
- SSD

## ► VVH-MDE46 4ch

- 1080P
- WiFi
- GPS
- G-Sensor
- 4 alarm inputs
- VGA/CVBS
- RS-232
- SD card

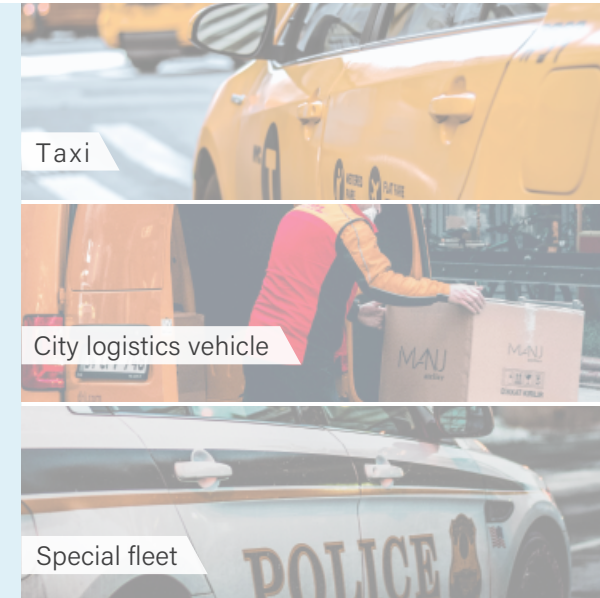

# Diversified Management 『New Choice』 Fleet management is no longer a heavy vehicles patent

## Smart cloud smart driving recorder

With the introduction of new technologies, the functions of the vehicle-machine system have rapidly extended from the previous fleet management to multiple applications.

Let the car also have professional fleet management, such as: taxis, passenger cars, urban logistics and law enforcement agencies...etc

Immediately experience instant vehicle tracking, collision image alerts, historical trips and fleet management features that are enabled on many devices.

### ► VVA-CBE65 H.265

2 built-in and 1 external (optional) cameras up to 1080P in resolution

AI SoC platform(Ambarella)

- 4G/WiFi/Bluetooth
- Input/Output
- AI applications
- G-Sensor
- GPS
- Support USB/RS232
- Support ACC

### Equipped with advanced AI technology

Accident prevention and driver monitoring combined with 4G connectivity and seamless cloud integration.

### ► CDR-E07D H.264

- Front 1080P
- Rear 720P
- Front view angle120°
- Rear view angle130°
- G-Sensor
- GPS
- External WiFi dongle

### ► VG07D H.264 Cloud system

- Front 1080P
- Rear 720P
- Front view angle120°
- Rear view angle130°
- G-Sensor
- GPS
- 4G/WiFi
- External WiFi dongle
- External 4G dongle

## ► VVG-CBE45 H.264

- 720P
- 90° viewing angle
- G-Sensor
- External WiFi dongle
- 360° adjustable round shaft

## ► VVG-CBN11B

- 100° viewing angle
- G-Sensor
- Manual event recording
- High heat-resisting material
- MIT Smile Logo

## ► VVN-MDE58A

- 2CH 1080P
- H.264
- G-Sensor
- GPS(OBD)
- Built-in supercapacitor
- External USB WiFi dongle

## ► VVG-MDE56C

- 2CH 1080P
- H.264
- G-Sensor
- GPS(OBD)
- Built-in supercapacitor
- External USB WiFi dongle

## ► VVG-CBE15A H.264

- 120° viewing angle
- G-Sensor
- Simultaneously record the sound inside and outside the car

## ► VVG-CBN11A

- 100° viewing angle
- HD video resolution
- Manual event recording
- G-Sensor
- High heat-resisting material

## ► VVG-MDE56

- 1080P
- H.264
- Built-in supercapacitor
- No built-in lithium battery

## ► VACRON SV1

- 2CH D1
- H.264
- Built-in supercapacitor
- External USB WiFi dongle

## ► VG01 H.264 Cloud system

- 100° viewing angle
- G-Sensor
- GPS
- External WiFi dongle
- External Bluetooth dongle

## ► VVG-CBE36B

- 100° viewing angle
- G-Sensor
- GPS
- External WiFi dongle

## ► VVH-MDE16

- 2CH D1
- H.264
- Built-in supercapacitor
- External USB WiFi dongle

## VACRON Smart Card

(32/64/128/256GB)

Best for  
in-vehicle systems

Provides ultra-high durability

Quality assurance and software  
consistency make the product  
more stable

### • Ultra high read and write frequency

Much higher than the general card repeated reading and writing 3 times.  
(General card frequency 500-1000 times)

### • Customizable cards

The industry's first memory card that integrates video equipment and memory  
card health information.

### • SD card Storage Endurance

Warning signal when the SD card storage reliability falls below the set value,  
users can check the card status through the device at any time.

# Suitable for all kinds of companies

From managers' perspective, Vacron understands that companies need reliable video surveillance solutions, minimize construction and maintenance costs. GMS is user-friendly, straightforward, and highly integrable, allowing managers to grasp the company's overall operation process quickly. GMS is a preferred solution by many companies.

**RMTP  
Protocol**

Access and  
Monitor Video  
Anytime  
Anywhere

Quick Setup and  
System Auto  
Maintenance

## Building and Integrating AI Ecosystems

Through AI technology, easy to monitor and manage in-n-out fixed-point arithmetic of people and vehicles.

Quick response to an emergency, improve the management efficiency and lower labor cost.

## Manage large equipments at the same time

Manage more than 5000 mobile and fixed surveillance cameras which can also maintain high-quality videos at the same time.

## Secure Storage Solution

GMS provides you with a secure, scalable, and flexible storage solution (Support NAS, AWS S3).

## Smooth without live streaming latency

Support realtime streaming with less than 0.5-second latency, two-way audio, and PTZ camera control to get the ideal view angle without a blind zone.

## All products for WI-FI series support P2P

The P2P connection is effortless to set up, secure and reduces the chance of cyber attack. Vacron server is used as the center to connect the device to the client. The server is very well protected and only serves as a bridge connection with P2P, so it will not store any image to the server.

- 1 Easy** | Remote monitoring using QR code or UID to join the device.
- 2 Safety** | No data breaches as the data are not stored on a server.
- 3 Peace of Mind** | Each device has its own password, no need to worry about network attacks.
