

VK-31BA

IP Control Keyboard

- › Supports both Analog and IP control, an IP address is available with the Internet control.
- › Supports ONVIF and PELCO protocol.
- › Applied a 4-position Joystick for smooth and comfortable handling when controlling. It allows direct control of omni bearing turns and lens zooming. Speed can be adjusted based on joystick pressure, allowing for real-time control of movement pace.
- › Able to set and adjust customized hotkeys, such as pre-set spots, patrol routes, and scanning.
- › It supports adding front-end equipment with the IE browser.
- › It supports custom keys for hotkeys. (Customization required)
- › It supports standard PoE power supply.
