

VVA-CBE65 1080P

Professional fleet dashcam

(Optional)

- › With Ambarella CV28 smart video processor, which combines high-quality graphics and AI-enhanced elasticity
- › Build-in road-facing & cabin-facing FHD camera, and support extra 1ch FHD Vacron camera(option).
- › 4G+GPS and WiFi wireless WiFi module and external antenna, and support Vacron GMS Cloud to enable the remote management of Fleet/Vehicle with real-time video, location,driving condition, collision event/video, and is able to integrate with existing business system(optional).
- › Combined with USB, RS232, and alarm I/O connector, supporting integration with abundant in-vehicle systems.(optional)
- › Build-in speaker & microphone to enable audio recording and two-way IP voice communication.
- › Support programmable setting on delay recording.
- › Support programmable setting on ACC-Off recording for parking mode application.(optional)

SPECIFICATIONS

System SOC- Ambarella CV28 Intelligent Vision Processor

Storage- 8GB EMMC

Memory- 1GB LPDDR4 SDRAM

storage device- Vacron SmartInfo Micro SD Card (Optional)
Compatible with SDXC, Class 10 or above; minimum support 64GB;
maximum support 512GB

Cameras- (1) build-in Road-facing camera, up to 1080P/30fps,
Sony StarVis IMX307 sensor

FOV(D/H/V): 120°/105°/55°

(2) build-in Cabin-facing camera, up to 1080P/30fps,

Sony StarVis IMX307 sensor

FOV(D/H/V): ~150°/125°/65°

Support external Vacron 3 ch camera,

1080P/30fps and 5V power supply (optional)

Video recording function- Support H.265 and 1080P/720P/480P resolution on Road-facing,
Cabin-facing and external 3Ch cameras.

Support G-Sensor triggered event recording, file lock and
auto-upload function.

Support ACC-OFF post-recording with software programmable timing.

Support parking monitoring mode: vibration/movement triggered
event recording.(optional)

Recorded content- Video, sound, date/time(auto-calibrated by GPS and GMS),
G-Sensor, GPS location data.

I/O Ports- mini-PCIe slot x1+Micro SD card slot x1

Standard SIM card slot x1+USB x1

All specifications shown are typical unless otherwise stated and are subject to change without notice.

SPECIFICATIONS

- I/O Wire-** Power cable(bare wire of Battery+Ground+ACC) x1 set
External 3ch camera-in(blue micro-DIN) x1
SMA RF external cable: 4G x1 + GPS/GNSS x1 (optional)
Optional: (1): CVBS-out(RCA) x 1 + Alarm I/O(bare wire) x1
(2): RS232 (bare wire) x1 + USB (type-A female socket) x1
(3): RS232 (bare wire) x1 + Alarm I/O (bare wire) x1

Illumination- 850nm IR LED x4 for illumination of interior recording, Light sensor x1

Buttons/LEDs/Sensors- Analog microphone MIC x1, Programmable event button x1
Event button x1, built-in speaker x1,
Indicator LED x3 (Recording + Link + GPS)
Built-in six-axis Gyro & G-sensor

4G&GPS- Support Quectel EC25 series LTE+GNSS/GPS module (optional)

WiFi- USB WiFi4 module with antenna (optional)

Support mobile phone P2P connection and WiFi Internet connection

- Software Support-** (1) Vacron GMS cloud platform:
Support system integration with events, devices,
media API (on http)and live video streaming service
Vacron P2P service
- (2) Vacron Cloud Protocol (VCP) can quickly connect the dashcam to
the Vacron GMS cloud with live video streaming functions
Cloud Streaming
- (3) Windows version Vacron SD card player application program
(4) SDK for Android/iOS smartphone application development
(5) Android/iOS mobile APP: VacronLink

All specifications shown are typical unless otherwise stated and are subject to change without notice.

SPECIFICATIONS

Accessory- Mounting bracket x1, screw set x1, Windshield socket x1
and 3M double-sided tape x1
External global 4G/GNSS antenna (optional)
5/10/15m micro-DIN extension cable (optional)

Environment- Operating temperature: -20°C~+55°C
Storage temperature: -40°C~+85°C
Operating humidity: 20%~80% Storage humidity: 10%~90%

Power Supply- DC 9V~16V

Dimensions 127mm x 76.5mm x 35mm(LxWxH)

Weight- 250g

All specifications shown are typical unless otherwise stated and are subject to change without notice.
