

VIH 3.1.x Version Important Notification

1. GUI design is identical with TI product line.
2. Requires build version upgrade procedure twice, ff upgrading from version 3.0.x (please check description in HisiTransfer.7z attachment).
3. **Default IP address: 192.168.1.221, account name/password: admin/admin**
4. Rectified time zone setting issue occurred in previous Hisi UI.
5. Allow communication between NVR 415/NV/620NV/621NV in VIH3.1.x or later version.
6. IR signal source and firmware differ in present DH850 version (DH850 requires specific firmware whereas others does not); this differences might be amended in future DH850.
7. Please set sound encoding to “PCM” to allow communication between NVR 415/NV/620NV/621NV.
